

Smart Solutions for the Automated Warehouse and the Digital Supply Chain.

Visit us: LogiMAT, Stuttgart, March 10th -12th 2020, hall 8 / booth A21

Efficient. Cost-neutral. Climate-friendly.

In logistics, speed, process reliability and real-time transparency are critical success factors for your lead in the Digital Supply Chain. At this year's LogiMAT, the ICS Group will present innovative concepts and integrative solutions with which you optimize your individual processes in a future-proof, sustainable and cost-minimized way. Convince yourself of the advantages of our software solutions and smart technologies within the life demonstration.

ICS Solutions for your Supply Chain.

- ✓ Stradivari® - Warehouse Management System
- ✓ Android Mobility for your Warehouse
- ✓ 4mobile - Mobile Business Platform
- ✓ Mobile Computer, Wearables, Scanner, Printing Systems
- ✓ Mobile Device Management

Infrastructure. Consulting. Software.

ICS Solutions for Automation & Digitalization of Warehouse, Logistics and Supply Chain Processes.

Stradivari® - The intelligently linked warehouse management system optimizes your logistics processes.

Android Mobility - The gateway to mobility and seamless connectivity in the supply chain.

4mobile – The mobile application connects your IT and optimizes transport, extralogistics and service.

Mobile computer, wearables, scanners and printing systems increase employee efficiency.

Mobile Device Management ensures availability, failure safety and support.

Discuss your challenges in the field of digitization and automation with our experts in hall 8 / booth A21.

Wednesday, 11.03.2020,
12.30 to 13.00 o'clock
forum F, hall 6

Visit the ICS lecture in the Innovation Forum:

Das automatisierte Warehouse: Integrative Lösungen mit smarten Technologien & intelligenter Software.

(The lecture is in German Language.)

José da Silva, Chief Sales Officer ICS Group
