Workflow+ - COLLABORATION PLATFORM

One solution for all administrative processes

Efficient teamwork

Workflow+ enables teamwork within the supply chain and optimizes work efficiency through the topic-related exchange of information under proactive control of the required processing times.

This platform enables efficient collaboration between workgroups, departments, subsidiaries, partners and customers for context-oriented process handling.

Transparency of processes „In-Quality + In-Time“ leads to operational excellence and highest productivity.

Customer satisfaction

+

Employee satisfaction

=

Higher profitability

EFFICIENT COLLABORATION PLATFORM

Workflow+ enables you to transparently control all areas of your company and is used in particular where information has to be shared.

E-mail, Excel, meetings and other time-consuming coordination become superfluous through the use of a collaboration platform, which also reduces process costs.

Thanks to Workflow+, task processing is made easier for employees, as the individual tasks are displayed individually in an intended order. In addition, information is made available centrally. A process-related distribution of information within and outside the company is guaranteed.

The use of this platform increases employee satisfaction, customer satisfaction and your profitability through increased process efficiency.

Key benefits

+ Increase in service quality
+ Process automation and transparency
+ Knowledge transfer
+ Context-oriented collaboration platform
+ Increase of process productivity
+ Mobile processes

Applications i. a.

+ R&D
+ Project work
